# Festo AX Smartenance

FESTO

Characteristics

At a glance

AX Smartenance: The smart solution for your SAP PM processes

Intuitive operation: Smartenance brings the SAP PM process into a user-friendly environment – simply, quickly and efficiently.

Fast synchronisation: Data from SAP is synchronised in real time so that you are always up to date.

Seamless integration of SAP S/4HANA: Smartenance can be integrated seamlessly into your existing SAP S/4HANA landscape and ensures an optimal process connection.

Web & mobile app: Use Smartenance flexibly, whether on your PC, tablet or smartphone. The web and mobile application enables you to work no matter where you are.

Internal knowledge database: Document and share valuable expertise in an internal knowledge database. This allows you to solve problems faster and optimise your maintenance processes in the long term.

Technical prerequisites
- SAP S/4HANA 2021 FPS02 (S4CORE 106) (on-premise)
- SAP licences for third-party application integration: please get in touch with your SAP contact person
- SAP Note 3427034 must be installed
