

# Suction cup complete holder ESH-HB-2-PK

Part number: 189206

FESTO

 [General operating condition](#)

## Data sheet

| Feature                           | Value                                            |
|-----------------------------------|--------------------------------------------------|
| Nominal size                      | 2 mm                                             |
| Volume                            | 0.188 cm <sup>3</sup>                            |
| Mounting position                 | optional                                         |
| Design                            | Vacuum port on side                              |
| Correlation to suction-cup holder | Size 2                                           |
| Operating medium                  | Atmospheric air based on ISO 8573-1:2010 [7:::-] |
| Corrosion resistance class CRC    | 1 - Low corrosion stress                         |
| LABS (PWIS) conformity            | VDMA24364-A1-L                                   |
| Ambient temperature               | -10 °C ... 60 °C                                 |
| Product weight                    | 11 g                                             |
| Type of mounting                  | Via female thread                                |
| Suction cup mounting              | Diameter 4 mm                                    |
| Vacuum connection                 | PK-4                                             |
| Note on materials                 | RoHS-compliant                                   |
| Material seals                    | NBR<br>Steel                                     |
| Material retaining bracket        | Tempered steel<br>High-alloy steel               |
