

# Moment compensator DARD-L1-40-S

Part number: 8001413

FESTO

 [General operating condition](#)

## Data sheet

| Feature                                                | Value                    |
|--------------------------------------------------------|--------------------------|
| Size                                                   | 40                       |
| Radial deviation +/-                                   | 2 mm                     |
| Corrosion resistance class CRC                         | 1 - Low corrosion stress |
| LABS (PWIS) conformity                                 | VDMA24364-B1/B2-L        |
| Ambient temperature                                    | -20 °C ... 120 °C        |
| Max. permissible long-term load in force direction +/- | 1800 N                   |
| Note on materials                                      | RoHS-compliant           |
| Material bolt                                          | High-alloy steel         |
| Material clevis                                        | High-alloy steel         |
| Material slip piece                                    | Brass                    |
| Material lock                                          | Spring steel             |
