

# Moment compensator DARD-L8-20-S

Part number: 8081466

FESTO

 [General operating condition](#)

## Data sheet

| Feature                                                 | Value                            |
|---------------------------------------------------------|----------------------------------|
| Size                                                    | 20                               |
| Radial deviation +/-                                    | 2.5 mm                           |
| Corrosion resistance class CRC                          | 1 - Low corrosion stress         |
| LABS (PWIS) conformity                                  | VDMA24364-B1/B2-L                |
| Ambient temperature                                     | 0 °C ... 60 °C                   |
| Max. permissible short-term load in force direction +/- | 1100 N                           |
| Max. permissible long-term load in force direction +/-  | 550 N                            |
| Product weight                                          | 137 g                            |
| Note on materials                                       | RoHS-compliant<br>Free of copper |
| Material adapter                                        | Anodised aluminium               |
| Material screws                                         | Galvanised steel                 |
